Instruction of Upgrading the M5 Bluetooth Firmware

Please check the **Bluetooth Firmware version** of your M5 first (Go to M5 Settings -> System Settings -> About Device, and quick click the NB option for about 10 times).

If your Bluetooth Firmware version is already the latest 1.1.1, please do not update again.

1. Download and unzip the Bluetooth firmware package

Download link:

http://fiio-file.fiio.net/M5%20Bluetooth%20Firmware1.1.1.zip

2. Set the M5 to DFU mode

Go to M5 Settings -> System Settings -> Bluetooth Firmware Update. The blue indicator in M5 will flash for some time and turn off. After that connect the M5 and your Windows computer using the USB C cable that comes with the M5.

3. Upgrade the Bluetooth firmware

a. Double click the 'FiiOBluetoothDfu.exe' application file to run it

Name	•	Date modified	Туре	Size
lib		2019-08-24 12:56	File folder	
FiiOBluetoothDfu		2019-07-12 19:02	Application	18 KB
M5Bluetooth firmwareV1.1.1.dfu		2019-07-04 17:28	DFU File	1,010 KB

b. Click 'start upgrading' and choose 'ok' in the pop-up dialog

c. Please wait patiently for the upgrade to complete and do NOT operate the device during this process.
